

## BURNING VESSEL IS IDENTIFIED AS FREIGHTER COLUMBIAN AND THIRTEEN OF HER CREW RESCUED

### WIRELESS MESSAGE FROM FRANCONIA TELLS OF FINDING SMALL BOAT ADRIFT

Boat Picked Up Contained Body of Chief Steward Mathews—  
Second Boat Containing Nineteen Men Has Disappeared  
—May Have Been Third Boat Containing Capt. McDonald  
—Search for Missing Men Has Not Been Given Up.

LEAD BURNING VESSEL. . . . .  
BOSTON, May 5.—The mystery surrounding the identity of the steamer which has been on fire in the west bound trans-Atlantic south of Sable Island for forty-eight hours was solved tonight when wireless messages from the Cunard liner Franconia told of the burning of the freighter Columbian and the rescue of thirteen members of her crew from a small boat. The death of Chief Steward Mathews, whose body the survivors had in charge and the disappearance of a second boat, in which were nineteen men, including the first and second officers, were also reported.

Whether the number of missing was represented by those said to be in the second boat, was still uncertain tonight. Estimates by officials of the Leland and Phoenix lines placed the number of the crew at between forty-five and fifty. The messages from the Franconia told of only thirty-three men, represented by the occupants of the two boats. It was thought possible that there was a third boat, commanded by Captain McDonald of the Columbian. The survivors were so exhausted by their experience that they could tell little of what had happened and steamship officials expressed the opinion that the omission in the wireless messages of mention of the captain might be laid to this fact.

Search Proves Fruitless.  
After rescuing the occupants of the first boat the Franconia searched until midnight for the rest of the crew but without result. Captain Miller of the Cunard liner sent word ashore that he had given up the search and would proceed for Boston with the survivors and his 1,733 passengers. He said he expected to arrive at Boston lightship at mid-night Wednesday.

Search for the missing men of the Columbian has not been given up, however. Before turning for his destination, Captain Miller had notified the Steamers Manhattan and Havford, both east bound of the missing boats and they sent word that they had changed their courses and were heading toward the burning steamer.

The Columbian was owned by the Leland Line but was chartered to the Phoenix Line for a voyage from Antwerp to New York. She carried no passengers. The latest word of her came today from the North German Lloyd liner Seydlitz, which had stood by for twenty-four hours, saying that the vessel was afloat throughout and that the funnel and foremast had gone by the board. The steamer had a miscellaneous cargo valued at between \$200,000 and \$300,000.

Those Aboard Franconia.  
On board Steamer Franconia, via Sable Island, N. F., May 5.—Thirteen survivors of the British Steamer Columbian, bound from Antwerp for New York, which caught fire at sea Sunday night, were picked up today by the Cunard liner Franconia bound from Liverpool for Boston. In the boat with the survivors was the body of the chief steward, Mathews.

Another boat containing the Chief and Second officer and seventeen men was still afloat. The Franconia cruised in search.

Those aboard the Franconia are: James Dronan, wireless operator; Antonio Flax, carpenter; Ivar Iversen, boatswain's mate; Ungus E. E. Pinze, Jens Jensen; A. A. Abelnick, quartermaster; Gustav Schrihorn, donkey man; Thomas Connor, Jurile and Arthur Brantik, able seamen; Antony Cordones and Bennett Rother, firemen and Frank Wedekind, mess room steward.

The survivors suffered terribly during forty hours exposure in an open boat. Their exhaustion was so great that it was impossible to obtain a coherent story from them several hours after they were picked up.

The Columbian caught fire Sunday night when about 300 miles south of Cape Rice. A series of violent explosions followed almost immediately. Captain McDonald ordered the wireless operator, James Dornan to send out calls for assistance but one of the explosions put the wireless apparatus out of commission, cutting off the Columbian from communication with nearby ocean liners which might have come to the rescue. With the vessel belching flames and torn by the explosions, it soon became evident that the crew could do nothing to control the fire and the order to abandon ship was given.

The men left the Columbian in two boats. Chief Steward Mathews was in charge of the first boat. This boat put away from the steamer and lay to for a time, but in the dense smoke which surrounded the burning vessel the other boat was not visible and the steward's boat finally drifted far from the scene. Of their sufferings during the forty hours in which they were tossed about and of the death of Chief Steward Mathews during this time, the men could say little when they were brought on to the decks of the Franconia. Food and sleep were considered first and although sympathetic passengers were ready with offers of assistance to the ship wrecked ones, Captain Miller of the Franconia saw to it

### MEN KILLED AT SIDE OF TRACK

DECATUR, Ill., May 5.—Two Greek laborers are dead. H. Bergman, a traveling salesman of Litchfield, is expected to die, and about twenty were injured as the result of the derailment of the diner and rear Pullman on the Wabash Continental Limited as it entered this city at 6:15 o'clock tonight. Steel coaches saved the lives of the thirty or more passengers. The Greek laborers were at the side of the track when the accident happened. Their bodies were so mangled that it was impossible to identify them.

The engine and three cars passed the switch safely and later came into the station. The last two cars side-swiped a string of coal cars and finally stopped, standing up, the end of the Pullman being only slightly damaged, although all the windows were broken.

Those in the diner, the last car, were the most severely injured. A. B. Wunderle, of St. Louis, Pullman conductor, was not injured although he was in one of the wrecked coaches.

The List of Injured.  
The list of injured given out at the "Wabash" hospital tonight follows:

H. Bergman, Litchfield, seriously.  
J. Sher, Minneapolis, serious.  
William Kerran, conductor, Danville, Ill., not serious.  
Van H. Johnson, colored, Toledo, Ohio.  
James Bell, colored, St. Louis, second cook.  
E. B. Lovell, colored, St. Louis, second waiter.  
J. Smith, colored, St. Louis, second chef.

### SON WHO MURDERS AGED FATHER EVIDENTLY INSANE

New York, May 5.—Chester Herneil Duryea, chemist, who murdered his aged father, General Hiram Duryea, millionaire starch manufacturer, in their Bay Ridge home in Brooklyn, early today, was removed in a straight jacket from a Kings' county jail to a city hospital tonight after he had shown what his keepers regarded as signs of insanity.

In his jail cell, where he was confined after arraignment in a police magistrate's court he paced about, mumbling to himself and occasionally throwing up his hands. His relatives said earlier today that he had shown indications of mental irresponsibility in recent years and their statements were supported by his actions after his arrest. The authorities decided upon his removal to the hospital so that he might not harm himself.

General Duryea, distinguished civil war veteran and head of the famous Duryea Zouaves was shot while in bed. He was asleep at the time, it is believed and died without making any defense. Incoherently the son told of how he committed the crime. He gave no reason for it but said that he had received a spiritual message from George Washington, to kill the general, who was eighty years old. The son was mild-mannered when arraigned in court and did not become violent until placed in a cell.

### MRS. PATMOUNT INTERVIEWS OFFICIALS AT CLEVELAND

CLEVELAND, O., May 5.—Mrs. Louise Patmount, wife of the minister who disappeared from Westville, Ills., March 31st, came here late today from Milwaukee and after interviewing officials started back to that city tonight. She did not see the body of the man which was supposed to be that of her husband and which had been exhumed twice for purposes of identification. Another exhumation would have been necessary as it has been buried again.

Mrs. Patmount expressed the opinion, based on information she gained here that the body is not that of her husband. Coroner Byrne said today he was almost positive that the body was not that of Rev. Patmount. Descriptions as given by Rev. C. L. Milton, of Milwaukee, of the body and of Patmount varied widely.

HARRY SEYFERT DEPOSED.  
Bloomington, Ills., May 5.—At a meeting of the directors of the Bloomington Three Eye League baseball directors tonight, Harry Seyfert was deposed as manager and First Baseman Peter Lister appointed his successor.

## SENATOR LA FOLLETTE SEES A CONSPIRACY

DECLARES GREAT INFLUENCE BEING  
USED IN FAVOR OF RATE INCREASE

Lays Before Senate a Mass of Evidence of a Conspiracy to Intimidate and Influence the Inter-state Commerce Commission.

### TUESDAY IN CONGRESS. House.

Met at noon.  
Judiciary committee reports without recommending prohibition and woman suffrage constitutional amendments resolution.

Inter-state commerce committee considers bill to provide federal control of railroad capitalization.

Debated naval appropriation bill.

Administration two battleship construction program in naval appropriation bill sustained by vote of 152 to 41.

Recessed at 5 p. m., until 8 p. m., to consider claims bills.

Passed number of private claim bills.

Adjourned at 11 p. m., until noon Wednesday.

Senate.  
Met at noon.

Senator Stone spoke in favor of toll exemption repeal.

Senator LaFollette spoke on his bill making it unlawful to attempt to influence the inter-state commerce commission.

Resolution asking President Wilson for verification report that he favors Villa for president of Mexico, submitted by Senator Lippitt of Rhode Island.

Adjourned at 6 p. m., to noon Wednesday.

WASHINGTON, May 5.—Senator LaFollette laid before the senate today what he declared was evidence of a widespread conspiracy to intimidate, coerce and control the inter-state commerce commission to grant eastern railroads the five per cent increase in freight rates for which application is pending.

The senator spoke on his bill to make it a criminal offense to seek to influence decisions of the commission. He talked for more than two hours and produced a mass of newspaper clippings, copies of letters and telegrams which found their way to the committee in which the authors urged favorable action on the railroad plea.

He declared that "the conspiracy" had made use of newspaper articles, editorials and advertising; that manufacturers and bankers had assailed the commission with communications favoring an increase in freight rates; that before the railroads made their application, under the law the senator said the commission must reach its decision on the evidence and testimony taken by it and not upon the arguments advanced through such a campaign.

In the course of his speech the senator declared that in Washington newspapers, President Wilson frequently had been made to appear in favor of the rate increase. He said he could not believe that the president sought to influence the commission but expressed surprise that the published reports of his attitude had never been denied.

When Senator Stone pointed out later that there had been denials from the president, Senator LaFollette said that he was glad to hear this statement and hoped that the denial would appear in the Congressional Record.

The senator warned his colleagues that there is a growing suspicion in the minds of the people of this country that the courts are more inclined to look kindly on property interests than upon the rights of the individual. He said that congress could not excuse itself for constituting a tribunal like the commission, turning over to it cases of such vast importance as the one in question and leaving it exposed to every conceivable form of attack.

He told how Chairman Harlan of the commission was called from his bed at midnight recently to receive a communication urging the increase.

"There is no mistaking what has been done," said the senator. "The wayfaring man, though a fool, knows that there has been an organized conspiracy to coerce the commission to compliance with the demands of the railroads that fifty million dollars be taken from the public, handed over to them and no questions asked."

"Little Navy" Men Lose Fight.  
"Little navy" men in the house today lost their fight against the two battleship construction program in the annual navy appropriation bill.

An amendment by Representative Buchanan of Illinois to provide for one ship was defeated 148 to 91, while a motion by Representative Witherspoon of Mississippi to eliminate all provision for battleships was swamped 152 to 41.

Democratic Leader Underwood and Republican Leader Mann with several other prominent figures in the house voted with the one-ship advocates.

When the house adjourned the remainder of the building program was pending with a motion by Representative Maher of New York that at least one of the battleships be constructed in a navy yard and one by Representative Moore of Pennsylvania that both contracts go to government plants.

## UNION OFFICIALS WILL USE INFLUENCE FOR DISARMAMENT

Question of Delivering  
Arms to U. S. Army Is  
Up to the Strikers

### WILL URGE COMPLIANCE

Strike Leaders Declare They Will  
Urge Miners to Surrender All  
Weapons to Officers

### MANY OF GUARDS DISARMED

TRINIDAD, Colo., May 5.—The question of delivering the arms of striking coal miners to the United States army will be left to the men themselves to decide, according to announcement made by union officials here tonight. The announcement came at the end of a conference between William Diamond and Robert G. Bolton, strike leaders.

Colonel James Lockett, who arrived with the eleven cavalry today and Major W. A. Holbrook.

Diamond declared that the union leaders would urge the strikers to comply with the proclamations of the president and secretary of war and turn their guns over to the army officers.

"It must be understood however, that the guns do not belong to the union, they belong to the men themselves," he added. "If we should order the strikers to bring their guns to headquarters and turn them over to us, we would not get ten per cent of them. We will explain the situation to the men and use our influence with them to bring about obedience to the president's proclamation. That is as far as we can go."

The union leaders announced that a mass meeting would be held at the San Rafael tent colony and another at Starkville, tomorrow. These meetings will be attended by union officials and by Major Holbrook and other officers of the army.

The demand of the secretary of war for the surrender of arms will be explained to the strikers in their various languages. Diamond announced and they will be urged to give up their guns.

Major Holbrook said after the conference that the union officers had agreed to use their influence to persuade the strikers to comply with the requirements of the government. Colonel Lockett declined to say what measures he would take if the men failed to turn in their guns.

Many of the arms of the mine guards already are in the possession of the United States troops and the guns at various other mines are stacked ready to be turned over.

First Steps to Pay Expenses.  
Denver, Colo., May 5.—The first steps were taken today by the Colorado legislature to pay the expense of the seven months of industrial warfare in the state and to prevent any similar outbreak in the future. Three identical measures were introduced in the house and senate to provide a constitutional amendment giving the legislature authority to enact a compulsory arbitration act and laws giving the governor authority to close saloons and regulate the sale or purchase of fire arms in times of internal disorders.

In addition, a bill to establish a state police force was offered in the senate and a measure for a bond issue to pay the militia and the expenses of the military campaign was introduced in the house. These bills were referred to committees and adjournment taken until tomorrow morning.

Administration leaders expressed satisfaction at the appeal of the Republican state central committee "to all good citizens to unite, regardless of party ties to obtain peaceful settlement of all industrial disputes."

It was taken as an indication that the Republican legislators will support the program of Governor Ammons.

### BELIEVE PEORIA MAN WAS MURDERED AND PLACED IN CAR

CHARLES CITY, Iowa, May 5.—Belief that J. W. Kessler, aged 26, of Peoria, Ill., was murdered and his body placed in an Illinois Central box car, was expressed at the sheriff's office here this afternoon.

The body was found in the car early today. Heavy contusions on the head caused the authorities to investigate. The inquest will be held tomorrow. Kessler's parents are said to live in Peoria. He had been working for a dairy company at Waterloo, Iowa, and it is supposed his body was put aboard the car at that place.

### AUTO STRIKES WOMAN.

Springfield, Ills., May 5.—Mrs. Abner Knight, of Buffalo, was struck tonight and her skull fractured by an automobile driven by C. W. Huston of Mt. Pulaski. It is believed Mrs. Knight will die before morning. Huston and two companions are held pending investigation.

## ETHEL LORRAIN WINS HER DIVORCE SUIT

COURT FIXES ALIMONY AT RATE OF  
\$100 PER MONTH.

In Granting Decree of Divorce from Son of August Belmont, the Court Comments on the "Gilded Youth of the Great City"—Spent Money in Life of Pleasure and Reckless Squanderings.

### NEW YORK, May 5.—(Ethel Lor-

rain Belmont today won her divorce suit against Raymond Belmont, son of August Belmont, the financier. Alimony at the rate of \$100 a month was allowed.

Belmont is now abroad. Ethel Lorrain had passed as an actress, although she had never been on the stage.

In his opinion, granting Mrs. Belmont a decree, Supreme Court Justice Greenbaum commented on the "gilded youth of the great city." Alluding to young Belmont, the court said:

"His career of idleness, stimulated by the plaintiff, has not been conducive to a healthy preparation for the serious problems of life."

In fixing the amount of the alimony Justice Greenbaum alluded to testimony to the effect that August Belmont cut off his son's allowance of \$3,000 a year upon learning of the marriage and that Raymond Belmont left his father's employ, giving up a salary of \$900 a year.

When Raymond Belmont became of age in 1910, according to the opinion he had a fortune of \$143,284. In three years he spent \$73,000, "almost constantly in the company of the plaintiff," the opinion finds, besides giving about \$30,000 in cash to the plaintiff. The money, said the court, was spent "in a life of pleasure and reckless squanderings" and the fortune has sunk to a sum which brings an income of about \$2,000 a year. The alimony is calculated on that income and an earning capacity of \$900 a year.

WILSON AGAIN SEARCHING  
FOR GOVERNOR OF BOARD

Richard Olney Unwilling to Accept Responsibility at His Advanced Age.

Washington, May 5.—President Wilson is again searching for a governor of the federal reserve board. After four months of painstaking inquiry, he had determined on Richard Olney, former secretary of state, as the man to head the board which regulate the nations' system of twelve regional banks, but the latter has now declined, being unwilling at his advanced age to undertake new responsibilities. Many administration officials were disposed to believe that Secretary Houston of the department of agriculture would be the man finally chosen in Mr. Olney's place. It is an open secret that the president has wanted to appoint Mr. Houston to the federal reserve board but did not wish to make any changes in his cabinet which he refers to as a "team."

Mr. Houston favorably impressed those who came in contact with him when he toured the country as a member of the organization committee of the federal reserve board and his name was suggested for the board then.

It is known that since Mr. Olney's declination the president has not fixed on any one but is looking over the field. He is said to be anxious to get a New England man so that all sections may be represented. Colonel William A. Gaston, and Joseph O'Neill, both prominent Boston bankers have been suggested for the vacancy but it is believed the president will choose a business man with legal training. The other four members of the board selected by the president are:

Paul M. Warburg of New York; Dr. Adolph Caspar Miller of San Francisco; Harry A. Wheeler of Chicago and W. P. G. Harding of Birmingham, Ala.

PETITION PRESENTED.  
Springfield, Ill., May 5.—A petition was presented to the state public utilities commission today by the Union Station company of Chicago, through their attorneys, Robert Redfield and Loesch, Schofield and Loesch, asking the commission to issue an order granting permission to the Union Station company to accept the terminal ordinances, which involve an expenditure of \$61,000,000.

The commission set next Thursday at their offices in this city for the hearing of the petitioners.

## MEDIATORS TO HOLD THEIR CONFERENCE IN NIAGARA FALLS, ONT.

Canadian City Selected as  
Meeting Place for All  
Representatives

### WILL BEGIN 18TH. OF MAY

May 18th. Fixed as Date When  
Conference Will Begin—  
Bryan Makes Announcement

### MILITARY STATUS UNCHANGED

WASHINGTON, May 5.—The three South American envoys who have undertaken by diplomacy to settle Mexico's civil strife as well as her international difficulties announced tonight that the first formal conference with representatives of the different parties interested in the mediation would be held at Niagara Falls, Ont., Canada, on May 18th. Secretary Bryan made the announcement for the three diplomats in a brief statement, which was as follows:

"The mediators have notified the different parties that Niagara Falls, Canada has been selected as the place where the mediators will confer with representatives of the different parties interested in the mediation and that the 18th of May has been fixed as the date when the conference will begin."

The language of the declaration attracted attention for although the envoys had in a note earlier said they would withdraw their invitation for a Carranza representative unless an armistice between the constitutionalists and the Huerta forces were arranged, no specific parties to the negotiations were named in the state department announcement.

It was learned later, authoritatively, that the reason for this was due to the fact that a further effort was being made to induce General Carranza to send a representative. It was understood that the mediators had further explained their position to General Carranza and were still hopeful that he might be represented at the negotiations without seeking to limit his agent to discussion of any particular subjects.

It is practically certain that the withdrawal of American forces from Vera Cruz will not be ordered until some definite settlement of the whole Mexican problem is in sight.

The death of two of the Mexican wounded at Vera Cruz bringing the mortality list up to 17, the announcement that the president and Secretaries Garrison and Daniels would go to Brooklyn to attend memorial services for the nineteen dead being brought back on the Montana and the order to the hospital ship Solace to bring its wounded back to New York and Boston so that the sick may be in a cooler climate, were the chief announcements from the navy department during the day.

Mediators Continue Sessions.  
Developments in Mexican situation today were divided between the diplomatic and the military status.

The South American mediators continued their sessions throughout the day and for the first time it became authoritatively known for them that they considered the whole range of Mexican affairs as properly embraced in their work.

Their reply to Carranza had made this clear and while eliminating him from the mediation for the time being, it still left the door open to him to come into the proceedings later.

At the war department it became clear that the status quo at Vera Cruz would be maintained, with no advance of the American forces unless to repel attack. But it was known that a definite course of action had been outlined in the event of a resumption of hostilities at Vera Cruz and the extension of the campaign toward Mexico City.

In that event Major General Leonard Wood will be in supreme command with General Funston directing the advance beyond Vera Cruz and General Charles J. Bailey of the coast artillery, assuming command of the base at Vera Cruz. This arrangement, however, is wholly in the line of preparedness and signifies no present purpose of being put into operation.

Congress after a considerable period of silence on Mexico again came into the situation. In the senate Senator Lippitt of Rhode Island, introduced a resolution calling on President Wilson for information as to published reports that it was the administration purpose to aid General Villa to secure the presidency. During a brief but spirited discussion Senator Lodge read from a London paper a scathing denunciation of Villa. The Lippitt resolution went over until tomorrow over the senate rules.

President Wilson has and cabinet held the regular Tuesday meeting but it was announced afterward that

## Car or Super-Car

That is the chief question men have to decide in buying a car to keep.

It overshadows everything else.

Almost any car is fit for normal service. There are very few cars which won't demonstrate well, or even run well for a season.

Then is it worth while to build or to buy a super-car like this Reo the Fifth?

Listen to our side of that question.

### AFTER 27 YEARS

Mr. R. E. Olds, after 27 years of car building, says that all these extremes are essential. Not for normal conditions, not for one season service. But to meet shocks and strains—to withstand years of wear—to save troubles, repairs and upkeep, a car must be built like this.

And no man in the world knows better about that than Mr. R. E. Olds.

### WHAT WE REQUIRE

We have for years kept test cars on the road. Relays of drivers run them night and day at high speed on rough roads. After 10,000 miles of this reckless driving we take

the car apart and inspect it. We require every part to endure that rough service. And every driving part, after 10,000 miles, must remain almost like new. Every formula, test and specification is based on these requirements.

To insure this, all steel is made to formula and each lot is analyzed twice. Gears are tested in a crushing machine for 75,000 pounds per tooth. Springs are tested for 100,000 vibrations. Engines are put to five radical tests, then taken apart and inspected.

Then we require a big margin of safety. All driving parts in this 35-horsepower car must meet the usual tests required for a 50-horsepower engine.

### IT STAYS NEW.

The result is a car that stays new. It doesn't grow noisy, doesn't show wear and doesn't give trouble. After years of use, with proper care, the car will run like new. It has strength enough for shocks. It has power enough for hills. There is no clashing of gears to wreck the transmission. There are no flaws, no weaknesses. Every part has vast over-capacity. A car built like this will save the average user hundreds of dollars in repairs and upkeep.

## BUSINESS MEN HAD GREAT MEETING

MORE THAN TWO HUNDRED ASSEMBLED AT URNA LODGE HALL.

Heard Brief Addresses By William B. McKinley of Champaign, Messrs. Raymer and Gage of Chicago Association of Commerce—Splendid Musical Program and Drill by D. O. K. K. Men—Speakers Emphasized Value of Team Work—Good Words For Jacksonville.

The reception or get-together meeting given Tuesday night by the Chamber of Commerce in the quarters of Urna Lodge 1. O. O. F. on West State street was one of the largest gatherings ever held under Chamber of Commerce auspices. More than two hundred men were present, a score or more of the number being substantial Morgan county farmers. The speakers of the occasion, who were introduced by John J. Reeve, president of the Chamber of Commerce were Hon. William B. McKinley of Champaign, Benjamin Gage and Walter Raymer, representatives of the Chicago association of Commerce.

The excellent speaking program was varied by an exhibition drill by McCarty's Arabs and musical numbers by Mr. D. M. Swarthout and Mr. M. L. Swarthout, Messrs. Kritch, Munger and Jensen and the Illinois College Glee Club. After the formal program brief speeches, impressing the desirability of membership in the Chamber of Commerce were made by Dr. G. H. Kopperl, chairman of the membership committee which arranged for the meeting last night, E. E. Crabtree and M. F. Dunlap. At the suggestion of Andrew Russell the company by a rising vote extended their thanks to all who had a part in supplying the splendid program. After the program came a social hour and a buffet lunch.

### Interurban Project Not Dead.

Mr. McKinley in his speech referred to the fact that he spent many months in this city as a boy and that he had never got over the good opinion he formed of Jacksonville in those days. He made no reference to interurban matters but later on M. F. Dunlap quoted Mr. McKinley as saying “By no means have we given up the idea of getting into Jacksonville with an interurban. It is certain to come some day.” On the way to the train Mr. McKinley said to W. B. Miser, “Well do you know I forgot to say anything about the interurban matter. I intended to tell the assembly how very close Jacksonville came to having the road a few years ago when a change in money conditions put an end temporarily to the movement. Just when the interurban will come I cannot say but it is a sure thing some time.”

### Dokays Give Excellent Drill.

The program for the evening opened with an exhibition drill by McCarty's Arabs, the drill team of Hiderim temple, D. O. K. K. The members of the team were in uniform and many who had never seen them work expressed their surprise at the excellent manner in which the different formations were gone through. The men received many compliments on the work.

After the drill Mr. Reeve remarked that great progress would result in the Chamber of Commerce if the members worked with as great unanimity as the men on the team and then introduced Benjamin Gage of Chicago, who said in part:

“I came here with several thoughts in mind and had formed a picture of what I expected Jacksonville to resemble, but I had no conception of the beauty of the city. From my acquaintance with the men I have met I feel that you have been growing manhood as well as trees, and it is something to be proud of.”

“I bring greetings from the Chicago Association of Commerce and wish to inform you that we are interested in what you do because we are all interested in the state of Illinois. I am interested in the membership work of our association and in selling membership to a hard headed business man who can see no immediate return for his money, we are up against a hard proposition. One effective way is to appeal to a man through altruistic motives. He must be made to recognize the need of the community and that someone must take up the work and carry it on, and this strikes a responsive chord. Taking care of the rural districts is positively essential to any organization such as Jacksonville and you are to be congratulated for what you have done in this direction.”

### Praises Jacksonville's Manhood.

Walter Raymer, the next speaker also of Chicago, declared that keeping the present members is an important part of the work of a commercial organization and that membership in the association is essential to the business of a merchant. “No man in business in Jacksonville,” he said, “can afford to stay out of the organization if he believes in his community.”

The history of Illinois could not be written without Jacksonville. The town is strong in its manhood and has given to the state and nation men who have reflected nothing but credit on it. If the past can be taken as an indication of the what is to come, the future of Jacksonville is safe. It produces real men.

“The burden of a community rests upon everyone and it is unfair for any man to dump his load upon the shoulders of any one else. On my trip about the city this afternoon I saw many chances whereby Jacksonville could be made more beautiful without any burden on the taxpayers. Beautiful city is a pleasant occupation.” Mr. Raymer suggested that the parkways between the sidewalk and curbing could be improved with little expense and

remarked that “Jacksonville has many visitors and after going away a man is either a booster or a knocker. What you want to do is to make Jacksonville more beautiful so that your visitors will go away with a good impression of the city, and this is advertising that doesn't cost anything. He was greeted with deafening applause, when with a glance at the traction magnate, he said, “I am sure that if you could induce Mr. McKinley to bring his interurban into Jacksonville it would be one of the best things that you could do.”

### McKinley's Boyhood Days.

Mr. McKinley said in part: “I came to this city just about as soon as I was born and about a month of each year until I was twelve years old was spent here. As I was a poor minister's son and came here where there were ponies and plenty of other attractions I began to think Jacksonville was a sort of heaven and I have never really got over that feeling. Six years or more ago when I had the chance to buy the utilities, I grabbed at it, and had to take part of the property away from a woman at that. We have been glad we made the investment in Jacksonville and we never expect to be sorry for any money we spend in this good city.”

“It has been my business to handle a lot of other peoples' money during recent years. I have noticed it is hard to find a man with a million dollars to invest in a business. But it is comparatively easy to find 200 men who together can raise a million. That explains briefly what organizations of business men can accomplish. About 1900 I went to Wichita to buy the street railway property and at that time the city had a population of about 20,000 and in 1910 the population was 52,000 and this was accomplished by co-operative boosting. Des Moines I account today the liveliest city in the central west and the rapid and substantial growth there has been brought to pass by its work. Here in Jacksonville if you will have gone far enough. After all what we want is a place to live in with good environments and that's certainly what you have here. In some cities schools and colleges are better than manufactures.”

### The Value of Organization.

Mr. McKinley then told something of his trip around the world and mentioned attending a business men's luncheon in Shanghai, China, and another in Montreal. At the latter place the luncheon was given by the Canada club and he said there is one of these clubs in every city of any size in Canada. He attributed to these clubs the agitation for the repeal of the Panama tolls exemption because Canadian shippers will lose by the former plan. Mr. McKinley gave an intimate view of life in China which he considers a land almost without a government and referring to Japan made the assertion that anyone who suggested that country was wanting a fight with the United States did not know the facts.

Although Mr. McKinley gave the impression to his auditors last night that while he speaks without any attempt at oratory that he is certainly one of the type of speakers who has something really worth while to offer.

### Splendid Musical Program.

The very delightful musical program for the occasion included first, a violin solo by Mr. Max V. Swarthout, “Spanish Dance” Sarasate, and as an encore a Polish Dance by Drake. Mr. Donald M. Swarthout was the accompanist.

Illinois College Glee club made a substantial contribution to the program singing several selections “Hullabaloo,” “Ho Ye Cal,” “Lant,” “Sons,” “Obituaries,” “Park,” “The Bee,” Wilson. Then the Conservatory trio, Mr. W. E. Kritch, Mr. Edward Munger and Mr. Virgo Jensen played three movements from the suite “Episodes” by Edward Schnett.

The whole meeting was one calculated to promote a community spirit and to awaken an interest in Chamber of Commerce affairs. The various committees which arranged for the meeting were mentioned yesterday and they are certainly to be congratulated for the good work they did.

### SUPPER IN HONOR

OF W. E. VEITCH.

A supper was held at the Peacock Inn Thursday evening, in honor of W. E. Veitch by the ushers of Grace church. For a great many years Mr. Veitch has been a member of the church and as head usher at the church. For sometime he has been wanting to resign and recently succeeded in getting the official board to grant him his request. His place will be filled by Thomas V. Hopper. The meal was greatly enjoyed and a short social time followed. Those present were: W. E. Veitch, Thomas V. Hopper, Charles Hopper, A. T. Capps, C. E. Williamson, Homer Potter, L. P. Shuff, William McCullough, J. W. Breckon and Rev. J. W. Miller.

### PROF. C. B. REYNOLDS.

At least some of our people will remember Prof. Chas. B. Reynolds who was a teacher in Brown's Business College, about thirty years ago. Since then Mr. Reynolds has taught in various places, and is now in Kansas City, Mo. A magnificent high school building for the North east section of the city has recently been erected, and Prof. Reynolds has been put in charge, at a salary of \$3200. The building is 300x196 feet on the ground, three stories above the basement, and costs \$600,000.

### KNOX AND LOMBARD TO CUT ATHLETIC RELATIONS

All athletic relations between Knox and Lombard colleges will be severed after the baseball schedule expires on May 12. A dispute arose over the decision of a baseball game and the wrangling became so strong that the schools decided to sever their athletic relationship.

## JOHN DE FREITAS HAS MYSTERIOUSLY DISAPPEARED

Former Young Man of Jacksonville, Who Has Been Living With His Sister in Springfield Cannot Be Found.

Although a diligent search has been made for John DeFreitas, formerly of Jacksonville, nothing has been found of his whereabouts. He is a son of John M. DeFreitas, who lives northeast of Jacksonville He has a sister, Mrs. Maud Nunes, living northeast of Jacksonville and another sister, Mrs. Charles Smith of Peoria, also three brothers, Irvin of Peoria, Floyd residing in country. Ernest DeFreitas, who is employed in the grocery store of A. P. Vasconcellos on East State street.

For some time Mr. DeFreitas has been making his home with his sister, Mrs. Charles Smith in Springfield. Tuesday evening he left his home to go to Booth's drug store on East Washington street to get a prescription filled and since that time nothing has been heard of him.

DeFreitas was 27 years of age and went practically his entire life in Jacksonville. He is a machinist but has been in ill health of late and recently went to work at the C. P. & St. L. shops in Springfield. He went to the shops last Tuesday and after returning from work in the evening went to the drug store after the medicine. Investigation shows that he never called at the drug store.

He is 5 feet 4 inches tall and weighs 130 pounds, he is dark in complexion and had black hair and eyes. When he left the Smith home he wore a dark coat, gray trousers, blue working shirt and stiff hat. DeFreitas was of a retiring disposition and was a man of good habits and industrious. His relatives in Jacksonville have heard nothing from him, neither the relatives in Peoria.

### PRINCE COATES HAS NARROW ESCAPE

Was Caught in Corn Sheller and Clothes Were Torn from Body.

While operating a corn sheller shortly before noon Monday at his home two miles east of Rigston, Prince Coates suffered an accident that all but resulted in his death or severe injury. In reaching for a lever to shut off the machinery, his sleeve became entangled and he found himself being drawn into the sheller, but succeeded in grasping a partition post and holding on, though practically every shred of clothing was torn from his body. He lost some skin and suffered bruises, but was otherwise unharmed. It was his clothing catching in the wheels and throwing off the belt which stopped the machinery and prevented more serious injury. Mr. Coates made an automobile trip to Jacksonville Tuesday and is now able to resume his full duties on the farm.

### BIRTHDAY CELEBRATION.

May 4th, 1914, Mrs. Wm. H. Jumper of Waltonville, Ill. reached the 82nd milestone of life's journey and her children and grandchildren with their families gathered at her home on Sunday, May 3rd, for their annual celebration of the event. Thirty-eight guests were present, thirty-six of whom enjoyed the bountiful dinner prepared by the ladies for the occasion. The other three children, thirteen grandchildren, two of whom were children of a deceased daughter by a former marriage, eight great-grandchildren, two great great-grandchildren, and the writer (a niece of her husband) were among those who shared the festivities, one grandson and a son with their families were unable to attend. She was also the recipient of several presents which she greatly appreciated. After the dinner a picture of the group was taken, then all wished the hostess many returns of the day and returned to their own homes.

One of the presents was a birthday cake iced in white, ornamented in pink, her initials and the figures 82, made by the baker of Waltonville, and the gift of a friend of the same place.

### CHARLES WILLIAMSON IS BITTEN BY DOG

Charles Williamson, the eleven year old son of Mr. and Mrs. C. C. Williamson was bitten by a shepherd dog Tuesday morning while walking along the sidewalk near his home on South W. street. Though painful, the injury was not serious and young Williamson will be able to be about as usual within a few days. The dog was following Rex Brittenham who was driving along South West street about 8 o'clock in the morning. On coming near the boy, the dog ran to the walk and sunk his teeth into the calf of the young man's leg. Mr. Brittenham took him at once to the doctor and then conducted the animal to the police station where it was killed.

### WABASH BRIDGE BURNS.

Tuesday night a small Wabash bridge three miles east of Bowen was burned so badly that it was some time before trains could pass over it. An engine from Keokuk was sent out to test it and the bridge had to be strengthened before it was safe for a train to pass over it. None of the passenger trains into this city were delayed on account of the accident.

### JUDGE BALDWIN NAMED ASSISTANT COUNSEL FOR UTILITIES BOARD

Jacksonville Lawyer Appointed to Important State Position With Salary of \$4000.—Will Enter Upon Duties at Once.

Announcement was made Tuesday of the appointment of Judge F. E. Baldwin to the important post of first assistant counsel for the Illinois Utilities Commission. Judge Baldwin will withdraw from the firm of Kirby, Wilson and Baldwin and enter upon his duties at once. Everett Jennings is chief counsel for the commission and Judge Baldwin will be his first assistant and it is understood that a number of other legal assistants are to be named. A vast amount of work is piling up for the commission and scores of lawyers and clerks will be needed when the work is fully systematized.

Judge Baldwin's appointment it is said came through the influence of Judge Thompson who is familiar with his legal ability and fitness for the work which the position entails. For the present Judge Baldwin will keep his residence in Jacksonville although he may later move to Springfield. His many Jacksonville friends will be greatly pleased with his appointment. The position is understood to pay a salary of \$4000 per annum and has possibilities for advancement.

That your real estate might be tied up so that none of it could be improved, sold or even advantageously leased, without expensive litigation, until your youngest heir became of age?

That if any part of your estate, real or personal, should descend to an infant or incompetent, it could not be sold or divided without administration or perhaps special legal proceedings?

That even if all your heirs were of age, a partition suit might be necessary to determine the rights of your heirs, that in connection with such suit there might be trials, appeals and retrials, entailing heavy expense, all of which would be paid out of your estate in addition to the fees of the administrator, etc?

That an administrator would have to sell your personal property, that he would have no discretion in the premises, no matter how great the sacrifice?

### Putting on the Fat

Out on my farm I am giving a practical demonstration of what can be accomplished with the Wood's Grain Softener.

There are 43 cattle in the bunch. Each steer is getting a peck of corn daily. It is ground, cob and all and then cooked. In addition to the corn, each steer gets about nine pounds of clover hay a day and straw is near them all the time. A man with long experience, who has been watching these cattle, says they are putting on three to four pounds a day. They are sure making good money and the reason is that corn prepared in my cooker has far more nutriment value than fed in the ordinary way. Come and see these cattle.

### HUERTA FEARS VILLA MORE THAN HE DOES THE AMERICANS

Refugee at Vera Cruz Asserts Federal Commander is Still Sending Troops Northward.

Vera Cruz, May 5.—Francisco Villa, the rebel commander, may not make his intended descent upon Mexico City before three months according to a prominent business man who arrived here from the capital today. The refugee, who had just completed successful negotiations with Provisional President Huerta for the removal of a large quantity of bullion from the mining districts, says General Huerta is still sending federal troops northward, apparently fearing the possible approach of General Villa more than the Americans.

General Villa is proceeding leisurely, says the refugee, if he has the intention of moving on the capital. Both Monterrey and Saltillo are believed in Mexico City to have been evacuated by the federals who are said to have fallen back on San Luis Potosi where they are understood by the government to be threatened by the revolutionists.

General Huerta, he asserts, has done nothing to show he anticipates a forward movement of the American army or expects in the event of such a movement to offer serious resistance. The government powder factory is reported to be turning out daily some 6,000 dynamite bombs. These are understood to be intended for defense against an attack on the capital by General Villa or Emiliano Zapata, the Southern rebel. The refugee says that except for his seeing several cannons at the headquarters of General Maas, and supplies of dynamite for mining the bridges on the railroad, nothing further has been done by General Huerta to prepare for resistance on the road from Vera Cruz to the capital.

The business man who gave these facts called on General Maas and was furnished safe passage to Vera Cruz.

The refugee said there were street demonstrations during the first few days after the occupation of Vera Cruz when various American business houses were stoned by the mob in Mexico City.

The confiscation of arms, except those taken from the United States embassy and of automobiles was done without official sanction and it was stated that the automobiles would be returned to their owners and those responsible for their appropriation sent to jail where it was possible to fix the blame.

In the capital American and other foreign business houses, he declared, have opened their doors and are experiencing little difficulty in their affairs.

The American Mulcahy, who was sentenced to five years in prison by Provost Marshal Commander D. F. Sellers, for blacking, the proprietor of a gambling house, is not to serve his sentence. He was deported today and left for Galveston on board the San Marcos.

## JOHN W. LEACH FINDS HOGS PROFITABLE

WELL KNOWN FARMER HAS ABOUT GIVEN UP FEEDING CATTLE.

Tells About Various Kinds of Feed He Uses for Porkers of Different Ages—Believes Alfalfa is Greatest Crop Yet for Farmer But Careful Methods Must be Used—Keeping Up Soil Fertility.

One of the successful farmers of Morgan county is John W. Leach residing five miles southwest of the city where he has 175 acres of rich land which he manages with ability and secures results that are worth while. He manages 200 acres known as the William Sowell farm north of his home and in Wisconsin he has 640 acres of which 200 are cleared and the remainder in timber which is being gradually removed and the land cleared ready for cultivation. This farm is managed by James H. Thompson who was with Mr. Leach on the home place nineteen years and then went to Wisconsin to take charge of the farm there and he has been there nine years. He is unmarried and has a family with whom he lives and is an industrious, capable young man.

Knowing Mr. Leach's success in farming he was asked by a Journal representative for some experiences which he readily gave. For a good many years Mr. Leach fed and fattened a good many cattle but he has given it up for the high prices of feeders make the business too much like paying out a dollar and a half to get a dollar back. When he does feed he prefers Angus and Short Horn stock as they are good to fatten and should always have plenty of hogs to follow them but still he has nothing of the cattle kind on his place except a few he is raising and some Jerseys for milkers.

Likes Poland China Breed. At present he is giving his attention to hogs almost entirely as they require less work to care for them and are more certain money producers. For breed he still sticks to the Poland China though he does not condemn other breeds and says good results may be obtained from them. He says the trouble with the Poland Chinas is that they are too much inbred and too much inclined to be made small boned and tender which must be avoided if best results would be obtained.

In selecting a boar he wants one with broad face, broad head, straight back, good hams and a strong constitution, good vitality, strong bodied. The sows should be kept well but not too fat. They should have plenty of alfalfa hay and two ears of corn twice a day. He finds with this feed his hogs are less subject to cholera. He breeds for two litters a year first to come the last of March and the other the last of September. He weans the pigs when they are about ten weeks old. A sow should be at least a year old before raising pigs and should be strong and healthy. She may be kept for a good many years if of the right sort and will be found profitable. He doesn't like the small, portable structures as well as one large building open to the sun if desired, a separate apartment for each sow, warm and comfortable at all times.

Clean Water Helps. For weanling shots he uses soaked rye and alfalfa and especially emphasizes the great importance of plenty of fresh, clean well water at all times. He uses the patent drinker by which a hog may go to the tank and get a drink of good, pure water at any time. He says he has noticed when he has such an arrangement that often hogs will stop eating and run to the tank for a drink.

When he begins to get the hogs ready for market he uses corn which is necessary for fattening. Some fifteen or twenty years ago he made pavement of brick on which he feeds and it is in good condition yet. He thinks concrete properly put down would possibly be some better but

## Father Time

By WALT MASON.

Time drills along, and, never stopping, winds up our spool of thread; the time to do our early shopping is looming up just ahead. It simply beats old James H. Thunder how time goes scotching on; and now and then we pause and wonder where all the days have gone. When we are old, a month seems shorter than did a week in youth; the years are smaller by a quarter, and still they shrink, forsooth. This busy world we throw our fits in will soon be ours no more time hurries us, and that like blitz-en, toward another shore. So do not make me lose a minute, as it goes speeding by; I want to catch each hour and skin it and hang it up to dry. A thousand tasks are set before me, important, every one and if you stand around and ore me I'll die before they're done. Oh, you may go and herd together, and waste the transient day, and talk about the crops and weather until the roosters lay, but I have work that long has beckoned, and any Jim or Joe who causes me to lose a second, I look on as a foe.

his pavement has answered a good purpose.

He generally gets his hogs ready for market when they are eight to twelve months old. Last year he marketed 200 which averaged almost 300 pounds. This year he has raised a lot, mostly on pasture and alfalfa till they were seven to nine months old when he began with corn and soon a lot of them will go to market.

For young pigs he feeds a mixture of soaked or ground corn and rye with some sloy and plenty of alfalfa, whole or better, ground. Always with them as with the others, plenty of good, fresh, clean water.

Keeping Up Fertility. Mr. Leach is especially severe on the far too common practice of reducing the fertility of land which he says is wholly needless if men will use a little judgment and try to learn as they may. He is not very partial to clover on account of its uncertainty though likes it when one can get a stand. If a man has not enough stock to supply manure he thinks well of soy beans or cow peas for renovating land as the stand is more certain in that crop and its effect on the land is fine. In any event do not wear out the land; rotate crops, use all the manure you can save, sow clover or cow peas or soy beans and so keep up the land.

Just now Mr. Leach is trying a unique experiment and the result will be watched with interest. He has a seventy acre field of rye sown last fall and now quite well along. His drove of hogs is pasturing on it now and will continue to do so until perhaps the middle or latter part of May when they will be taken off and the crop permitted to mature, when he will turn in the hogs and let them harvest the crop. In this way he will save all the labor of harvesting and will leave a fine addition of fertility to the land and corn it will raise will be something worth while.

Sowing Sweet Clover. In addition to this, the latter part of last December he sowed on the land six pounds of sweet clover to the acre and did nothing to the land at all, just let the clover seed lie on top of the ground. In March he sowed six pounds of alfalfa seed to the acre on the same land. He took carpenter's glue and making a solution soaked the seed in it and covered with dirt from sweet clover for inoculation. This time he would have harrowed the land if rain had not made it too wet. He calculates that by the time the rye is all eaten there will be a fine pasture from the clover and alfalfa though it is something in the nature of an experiment but the young clover and alfalfa are already showing up in good shape.

Alfalfa the Profitable Crop. Mr. Leach is an enthusiast on the question of alfalfa and says it is the coming crop if a man wants to make money but he must use the right methods if he wants success. It is prime feed for all kinds of stock and for hogs as no superior.

In 1912 he plowed 25 acres of good land with five horses hitched to a three horse plow so as to go very deep. He had put on a good lot of manure and then to each acre of land he put on four tons of ground limestone. He harrowed, dragged and pulverized the land till it was like an ash heap. He would have sown earlier had the weather been wet enough but as it was he sowed the 18th of September, 25 pounds of seed to the acre broadcast, and took good pains to inoculate with dirt from an alfalfa field. Although it was so dry and unfavorable last year he cut two crops which together yielded a ton and a half to the acre worth twenty dollars a ton and left a third crop to shelter the ground during the winter.

One Season's Record. From present appearances he thinks he will have five or six tons to the acre this year if we have seasonable weather. Already he has had an offer of twenty dollars a ton for a lot of his crop this year. As soon as the dew is off in the morning he cuts with a mower and if the weather is hot and favorable are rakes up after dinner and into small heaps or shocks and then stacks in the field and covers with boards till he is well ready to bale. He says it is singular also to see how stock will eat alfalfa that has had rain in curing and would seem to be valueless. While not as good as that put up without rain, still it is valuable for feed and does well for stock.

All who raise corn should by all means have silos, he thinks, for they are a great saving and help to fertilize the land. In short Mr. Leach says: Raise stock and keep up the land. Don't sell your grain unless compelled to do so. Alfalfa is the farmer's great friend. It improves the land, yields well and makes best feed.

Mr. Leach has two blue grass pastures, one of 18 acres and one of sixty acres, both of which were seeded by the late Jacob Strawn sixty years ago and have not been cultivated since and are good today.

HER 85TH BIRTHDAY.

Monday was the 85th birthday of the venerable Mrs. Christina Eckels and it was quietly and pleasantly observed at her home on South East street. Mrs. Eckels was born in Marburg, Germany and came to this country when 42 years of age and has lived in this city and vicinity ever since. She lost her husband something over a year ago and now is tenderly cared for by dutiful children.

The members of her immediate family, her children and grandchildren were present and the day was happily enjoyed by the worthy old lady who yet enjoys excellent health and takes a great interest in the affairs of life.

## MEXICANS ARE POOR IN THE MIDST OF PLENTY

United States Has Investments of Half Billion or More in This "Storehouse of the World"—The Story of Mexican Oil.

With more wealth in her territory than is contained in few countries of like area in the world, the fifteen million people of Mexico are very poor. Herein lies the cause of the present Mexican trouble, for the country belongs in a very large measure to foreigners and the Mexicans have been able to indulge in revolution without fear of injuring anything they really owned themselves. They have worked for others and they have been oppressed, and in this "storehouse of the world" they are miserably poor and are kept poor. Mines, oil wells, railroads, lumber camps and public utilities—all belong to foreign investors and all are worked for the good of the absentee landlords outside of Mexico. The land is not cultivated for the good of the large part of the population. Large landowners or "haciendados," possess tracts, hundreds, thousands or millions of acres in extent and these are farmed by peons, laborers kept in slavery by debt. There is in Mexico no large middle class owning property to serve as a force for law and order and as a guarantee against revolution. Those of the people not working on the large haciendas are engaged in manual labor for the foreigner and between the two the propertyless peon is kept in a kind of serfdom.

A Variety of Wealth. Just how rich Mexico is, no one knows. Gold and silver mines are there which have been worked since the time of Cortez and are still producing large amounts of the precious metals. One-third of the world's existing silver supply has come from the mines of Mexico. Almost as valuable are mines yielding copper, zinc, lead, copper antimony and quicksilver. The oil industry of Mexico is the source of untold wealth.

Thousands of acres of rich agricultural lands have not yet been cultivated. Thousands more would make ideal ranches for grazing. Oak, pine, mahogany, rosewood and various hardwoods grow abundantly in the forests. There are more railroads in this country than in any Latin-American republic and in every city of size are street railway systems and electric light and power plants. There is room for millions of capital where but thousands are invested.

The American share in the development of Mexico so far is larger than that of any European country. The most conservative estimates place American investment at half a billion dollars. According to Marion Letcher, United States consul at Chihuahua, the figure should be placed at \$1,057,770,000, and according to the same authority, Mexican property is valued at \$795,187,242, and British owned property at \$321,302,800. Germany and France have investments in Mexico which run into the tens of millions.

The Story of Mexican Oil. The large interests of the capitalistic nations in Mexico is illustrated by the story of Mexican oil, according to James Middleton in the "World's Work" in an account of "Mexico, the Land of Concessions." For ages there had existed in the neighborhood of the Rio Soto la Marina, twenty miles west of the Gulf of Mexico, what was known and made use of by the Aztecs, who mixed petroleum from this pool with bitumen and asphalt, and used it for building their temples and caulking their canoes. They burned it also in the sacrificial fires they maintained before their gods. By the Spanish conquerors, however, no use was found for this oil and it was allowed to evaporate as fast as it seeped through the ground.

The field was first extensively developed just thirteen years ago. Edward L. Doheny, an American from California, saw the possibilities of the region and organized the Mexican Oil company, which was soon operating on a large scale. The news spread rapidly and within a few years the whole coast country around Tampico was full of oil wells. The Waters-Pierce company of Texas came upon the scene and within a year or two control was in American hands, or to be correct, Waters-Pierce Oil company hands.

British Capital Enters. Hardly had the Waters-Pierce Oil company obtained control before a British syndicate appeared in the form of S. Pearson & Son, Limited, of whom the head was Sir Westman Dickinson Pearson, afterwards Lord Cowdray. Sir Westman had built a railway across the isthmus of Tehuantepec a few years before, or rather had rebuilt it after it had once proved a failure. He became a warm friend of President Diaz in this way and gained concessions in the Tampico fields which made him a formidable rival for the American interests.

By 1910 Lord Cowdray had large holdings exempt from taxation, was in full favor with the Mexican government and was preparing to supply the British navy with oil on a large scale. He was hampered somewhat by the downfall of Diaz, but kept on refining oil and has now 58 per cent of the Mexican holdings. Madero was friendly to the American interests and some writers have gone so far as to say that the anti-Diaz uprising was inspired from Wall Street. However, the latter American observers are agreed that the countrymen's interests would have profited from Madero's rule, just as they agreed that Lord Cowdray is the gainer from the Huerta regime. Huerta has returned to the Diaz policy of friendship for the British; on Lord Cowdray's own statement the firm subscribed 3 per cent of the loan floated recently by Huerta.

It is a rich prize for which these rivals are contending. Lord Cowdray has a refinery of 19,000 capacity in barrels per day. He has a fleet of 20 tank steamers and is paying 8

per cent on dividends on shares amounting to \$8,500,000. In the Americana holdings there is a total of 8,300,000 acres in the Tampico district alone. Whether or not the oil interests have taken an active part in inciting the Mexicans to revolution, they have been a disturbing factor and have contributed to the political troubles in this great rich country of absentee landlordism.

## DEER HAVE ARRIVED AT NICHOLS PARK.

Animals Were Received Yesterday and Established in Their New Home.

The deer for Nichols park arrived safely yesterday and were put into the quarters provided for them and will soon be at home. They are a little strange now and hardly know what to make of their new surroundings but will soon become accustomed to them all right.

There are one buck or male two years old, a doe or female a year old and another doe four years old. The first two were reared wholly by Charles Stevenson on his farm near Little Indian and the latter came from Michigan. For many years Mr. Stevenson has made a specialty of rearing deer and has sold a good many which have been taken to parks in various parts of the country. The deer he rears are acclimated and they do not feel their captivity as they have known nothing else and that fact makes the ones bought of him far more desirable.

Mr. Stevenson brought 21 deer down in his wagon and turned them loose in their special quarters and they will be a desirable addition to the attractions of the park and they will not be captives in the real sense of the word. They arrived yesterday morning and were soon deposited and found their way into their house and then took a leisurely survey of the premises. The fence is eight feet high and above that a wire is stretched so there is little or no danger of the animals getting out. They eat about the same food as sheep and about the same quantity. It is doubtful if they will keep down the grass in their inclosure as it is well started. In times when grass is short they like any kind of grain and cabbage leaves, apples and the like as well as turnips, beets and anything that would be fed to a sheep.

## CINCINNATI MAY FESTIVAL.

Cincinnati, May 5.—Music lovers from several states are here to attend the biennial May festival, which will hold forth in Music hall during the remainder of this week. From an artistic standpoint the event promises to maintain the high standard established by the previous festivals given in this city. The program will be furnished by a chorus of 356 voices, the Cincinnati Symphony orchestra and such eminent soloists as Mme. Schumann-Heink, Mme. Alma Gluck and Pasquale Amato.

## LECKER FACES SECOND TRIAL.

New York, May 5.—The case of Charles Becker, the former police lieutenant, whose conviction of the murder of Herman Rosenthal was reversed by the court of appeals, will be called for its second trial tomorrow before Justice Seabury in the state supreme court. Considerable difficulty is expected in securing a jury, owing partly to the added prominence given the case by the recent execution of the four gunmen who were convicted as Becker's accomplices in the murder.

**MOWING GRASS IN DUNCAN PARK.**

Men were at work yesterday mowing the grass in Duncan park. The work was unfortunately delayed by an accident to the horse lawn mower last week. A second has been ordered and both were at work yesterday and now the popular resort will present a different appearance. It is the intention of the commission to use the funds at its disposal in the most suitable manner possible, treating every portion of the city fairly. Lack of means will prevent many things which the commission would like to do but they will endeavor as far as possible to give satisfaction.

**LUMBERMEN MEET IN CHICAGO.**

Chicago, May 5.—The National Lumber Manufacturers' association began its annual meeting in this city today with delegates in attendance representing the Southwestern Lumbermen's association, the Yellow Pine Manufacturers' association, the Northern Hemlock and Hardwood Manufacturers' association and other organizations of lumbermen in all parts of the country. The meeting will continue two days.

**CARDINAL GIBBONS SAILS FOR ROME.**

New York, May 5.—Cardinal Gibbons of Baltimore, accompanied by his secretary and several priests of his diocese, departed on the steamship Princess Irene today en route for Rome. Cardinals Farley of New York and O'Connell of Boston are on their way to the Eternal City, so that all three of the American cardinals will be on hand when the important consistory called by Pope Pius meets at the end of this month.

**BISHOPS GATHER FOR MEETING IN OKLAHOMA CITY**

Seventeenth General Conference of the Methodist Episcopal Church South.

Oklahoma City, Okla., May 5.—Page after page of the registers at the leading hotels in the city filled today with the names of bishops, clergy and prominent laymen of the Methodist Episcopal Church, South. They are the delegates to the seventeenth general conference of the denomination, which will convene in St. Luke's Church tomorrow for a session of three weeks. Among them the opinion prevails that the meeting is destined to be one of the most important and profitable that the denomination has ever held. The fact that the general conference meets only once in four years increases the interest attached to its sessions, and owing to the many questions of vital importance to the future of the church to come before the meeting for consideration it will be more largely attended by non-delegates than any of its predecessors.

The attendance at the conference will include between three and four hundred delegates, divided equally between ministers and laymen. The general sessions will be presided over by Bishop Mouzon of San Antonio. Other bishops who are expected to participate in the proceedings, and nearly all of whom are now in the city, are McCoy of Birmingham, Hendrix of Kansas City, Vandler of Atlanta, Hoss of Nashville, Denny of Richmond, Waterhouse of Los Angeles, Murrah of Jackson, Miss., Wilson of Baltimore, Key of Sherman, Texas, Atkins of Waynesville, N. C., and Kilgo of Durham N. C.

A large number of memorials and suggestions concerning proposed changes in the organic laws of the church will come before the general conference for consideration and action. The educational work of the denomination promises to receive more than the usual amount of attention owing to the decision of the supreme court of Tennessee that the church has no title to Vanderbilt University. A plan to establish another university to be under the exclusive control of the church may be considered.

The conference will receive a report from the commissioners of federation appointed by the general conference of the Methodist Episcopal church as to the advisability of a union of the two branches of the church. The plan of union has been agitated for many years and has made considerable progress, but no action looking to its consummation in the near future is expected.

The general conference may decide upon a change in the law of the church that will relieve presiding elders of the responsibility of holding quarterly conferences and making them more nearly district superintendents. Some change also may be made in the law relating to the care of superannuated ministers.

There are at present more bishops in the active service of the church than ever before, but the opinion exists that the general conference should elect one or two more to meet the present needs of the denomination. A number of prominent preachers are already being spoken of for the episcopacy, and the election will be an event of far more than ordinary interest to the entire church.

**"INSURGENT" WOODMEN EXPECT TO WIN.**

Chicago, Ill., May 5.—In Illinois, Nebraska and other States of the middle West the Modern Woodmen of America are holding their State conventions this week. These States contain the largest proportion of the members of the Woodmen and the action to be taken at the State conventions will have an important bearing on the future of the order. The principal business of the conventions will be to elect delegates to the triennial meeting of the head camp of the order to be held in Toledo next month. The rate question, which has convulsed the order for several years, is to be fought out at the Toledo meeting. At the previous triennial meeting a special session of the head camp was called for Chicago, where a readjustment of rates was ordered. These were strenuously opposed by insurgent members, and so many injunctions were obtained that the head officers finally announced that no effort would be made to enforce the new rates and that the entire matter would go over until the triennial meeting in Toledo. The insurgent factions have controlled a number of the State conventions already held and it is believed that at the convention this week a sufficient number of insurgent delegates will be elected to the Toledo meeting to prevent any action being taken looking to an increase in the insurance rates of the order.

**HOW FRENCH PEOPLE CURE STOMACH TROUBLE.**

A household remedy of the French peasantry, consisting of pure vegetable oil, and said to possess wonderful merit in the treatment of stomach, liver and intestinal troubles, has been introduced in this country by George H. Mayr, who for twenty years has been one of the leading down town druggists of Chicago and who himself was cured by its use. So quick and effective is the action that a single dose is usually enough to bring pronounced relief in the most stubborn cases, and many people who have tried it declare they never heard of anything to produce such remarkable results in so short a time. It is known as Mayr's Wonderful Stomach Remedy and can now be had at almost any drug store. It is now sold here by Armstrong's Drug store.

The man who does not have his clothes dry cleaned and pressed frequently,—does not get the full wear out of them.

Long before the clothes are worn out the lapels droop over, the coat front breaks, the sleeves wrinkle and pull out at the elbow, the trousers become baggy and lose their shape at the bottom, and the entire suit looks old and disreputable.

Our service keeps them clean and fresh, keeps them shaped right and fitting perfectly until they wear out. It's not only an aid to good dressing—but a real economy, as well.

Take advantage of it frequently.

## HOW WOMEN AVOID OPERATIONS

By Taking Lydia E. Pinkham's Vegetable Compound.

Cleveland, Ohio.—"My left side pained me so for several years that I expected to have to undergo an operation, but the first bottle I took of Lydia E. Pinkham's Vegetable Compound relieved me of the pains in my side and I continued its use until I became regular and free from pains. I had asked several doctors if there was anything I could take to help me and they said there was nothing that they knew of. I am thankful for such a good medicine and will always give it the highest praise."—Mrs. C. H. GRIFFITH, 7305 Madison Ave., Cleveland, Ohio.

Hanover, Pa.—"I suffered from female trouble and the pains were so bad at times that I could not sit down. The doctor advised a severe operation but my husband got me Lydia E. Pinkham's Vegetable Compound and I experienced great relief in a short time. Now I feel like a new person and can do a hard day's work and not mind it. What joy and happiness it is to be well once more. I am always ready and willing to speak a good word for the Compound."—Mrs. ADA WILT, 196 Stock St., Hanover, Pa.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## ECZEMA SPREAD ALL OVER BODY

Began on Cheeks With Pimples. Itched Badly. Caused Disfigurement. Had to Put Mittens on Him. Used Cuticura Soap and Ointment. Eczema Left Him.

Roxbury, Ohio.—"When my little boy was two weeks old he began breaking out on his cheeks. The eczema began just with pimples and they seemed to itch so badly he would scratch his face and cause a matter to run. Wherever that matter would touch, it would cause another pimple until it spread all over his body. It caused disfigurement while it lasted. He had fifteen places on one arm and his head had several. The deepest places on his cheeks were as large as a silver dollar on each side. He was so restless at night we had to put mittens on him to keep him from scratching them with his finger nails. He could not sleep because I put those mittens on which would not allow him to scratch and then he would wake up and be cross. If he got a little too warm at night it seemed to hurt badly.

"We tried a treatment and he didn't get any better. He had the eczema about three weeks when we began using Cuticura Soap and Ointment. I bathed him at night with the Cuticura Soap and spread the Cuticura Ointment on and the eczema left." (Signed) Mrs. John White, Mar. 19, 1913.

Cuticura Soap and Ointment do so much for poor complexioned, red, rough hands, and dry, thin and falling hair, and cost so little, that it is almost criminal not to use them. Sold everywhere. Sample of each mailed free, with 32-p. book on the skin and scalp. Address post-card "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and hair.

## BELIEVES NORTH CAN SETTLE PROBLEM

PRESIDENT OF N. Y. POST DEFENDS NEGRO OF THE SOUTH.

Villard Declares Solution of Problem Rests With "Interlopers From the North."—Southerners Charged With Handicapping Negroes.—Are Refused Schooling.

Baltimore, May 5.—In an address today before the Sixth Conference of the National Association for the Advancement of Colored People, Oswald Garrison Villard, president of the New York Evening Post, defended the negro of the South against what he termed "negro-baiting politicians," and said that he believed the solution of the problem rested with what southerners term "interlopers from the North."

"We, of the north, boldly venture to believe that we can solve this great race problem," said Mr. Villard. "We believe this because of the unanswerable argument of a titanic historical achievement on our side. It was the North which solved the slavery problem in the face of a practically united Southern public sentiment. The wisdom of the anti-slavery minority in the North, which, with the aid of military necessity, compelled Lincoln to his Emancipation Proclamation, has since been justified of all men."

"In the question of caring for the negro the South is divided within itself. Within its own ranks there are malcontents and rebels against the dominating public sentiment, the sentiment that is voiced today by political demagogues risen to eminence on the backs of the negro, and by means of wicked appeals to the unreason and to the baser passions of a largely illiterate or uninformed electorate. It is in these violent anti-negro Southern Senators and Congressmen that we see our chief enemies, as we behold in those within the other Southern camp a chief hope, a chief inspiration, a certain promise that the conscience and the justice of the South, together with that of the North, will eventually solve his terrible problem aright."

"As for the negro-baiting politicians, I for one lose no opportunity to assail them with all the powers at my command. I have no criticism too rasping, no words too violent to devote to them, and the mischief and injury they are doing to our whole country."

"When the negro fails to rise certain Southerners cheekily assert that this proves the negro incapable of advancing and half-brother to an ox. You same Southerners deprive the negro child of all schooling, as five thousand are deprived in Atlanta, turn him adrift to roam in slum streets, and then if he grows up an animal you say the responsibility is his, that that proves him a beast, and his race inherently criminal. Never was there a more brazen assertion that a people cannot rise in the scale of civilization and a more determined effort to prevent their rising. Never did men so frequently boast their radical superiority, and then, as if in doubt about it, do everything to handicap their black competitors so that they shall not compete on equal terms."

Mr. Villard said that the friends of the negro were indebted to Professor Sophroniska Breckinridge, formerly of Kentucky and now of Lexington, Ky., for their outspoken approval of the Association's protest against the segregation of white and negro clerks in Washington. For the work they have done in behalf of the negro, Mr. Villard also paid tribute to Dr. James H. Dillard, a leader in Southern education; P. P. Claxton, United States Commissioner of Education; Dr. W. D. Weatherford, of Tennessee; Prof. William M. Huntley, of the University of Virginia; E. C. Branson, president of the Athens (Ga.) State Normal School; Prof. Joshua Morse of the University of South Carolina, and a number of Southern newspapers.

### WHY MEXICANS DO NOT RUN MEXICO.

"One of the last public appearances of President Porfirio Diaz was as a visitor to the great electric power plant American engineers were building at the Falls of Necaxa in the state of Puebla," says a writer in the World's Works of recent date. "An ordinary working elevator, descending a gorge 700 feet deep was the one method of descending to the field of operations. The president's hosts invited President Diaz to enter and make the descent, but the grizzled victor of a hundred battles gazed down the cliff and looked hesitatingly at his entertainers."

"Is the man running the elevator an American or a Mexican?" he asked.

"He is an American, Mr. President."

"Very well; then, I will go down."

"And he made the descent in complete contentment and security."

"This episode explains many things and goes far to show why the task of developing Mexico has been left to the Englishmen, the German and the American. If Mexicans cannot be trusted by their president to the simple task of running an elevator, it is hardly likely they would undertake the building of railways, the construction of power plants and the sinking of mines. These things have been left to the foreigner and particularly to the American—the kind of man to whom President Diaz was not afraid to entrust the running of the elevator."

### MARKET LETTERS.

Chicago, May 4.—Oliver S. Green, with Walter Bros., U. S. Yards, Chicago, reports the estimated receipts for Monday May 4:

Cattle—17,000.  
Hogs—25,000.  
Sheep—23,000.

While the run of cattle was quite moderate, buyers on account of warm weather and good fills held back early. However, the demand was good and when the market got under good headway it was very active and generally 10c higher, with many sales showing an advance of 15c; 2 car loads averaging 1420 at \$9.60; 13 head averaging 1530 at \$9.60. Several car loads, weight 1204 to 1650, \$9.15 to \$9.40. Good weight yearlings up to \$9.25. We sold 2 car loads, averaging 1275, including 2 stags and 2 heifers, at \$9.25.

Good to choice handy to good weights, \$8.80 to \$9.25.  
Fair to medium, \$8.25 to \$8.65.  
Plain and warmed ups, \$7.85 to \$8.20.

Common quality, \$7.25 to \$7.75. Butcher stuff strong to 10c higher. Calves like last week's close. Stockers and feeders in short supply and 10c higher.

Fat cows, \$5.10 to \$8.00.  
Heifers, \$7.00 to \$8.50.  
Bulls, \$5.50 to \$7.90.  
Canners and cutters, \$3.50 to \$5.05.

Common heavy calves to good vealers, \$5.50 to \$8.50.  
Choice to prime vealers, \$8.75 to \$9.00.

Inferior stockers to good feeders, \$6.25 to \$7.75.

Choice light to good weight, \$7.85 to \$8.10.

Selected, \$8.00 to \$8.35.

Early the hog market was 5c higher; later only steady.

Mixed packing, \$8.25 to \$8.37½.

Medium and butchers, \$8.37½ to \$8.42½.

Rough heavy packing, \$7.75 to \$8.10.

Selected packing and shipping, \$8.32½ to \$8.55.

Light weights, \$8.30 to \$8.45.

Pigs and throw outs, \$2.50 to \$8.35.

Sheep strong to 10c higher. Yearlings, 10 to 15c higher. Shorn lambs, 10 to 15c higher. Trade active on all but woolled lambs.

Shorn native ewes, \$4.55 to \$6.35.

Shorn western ewes, \$5.40 to \$5.70.

Shorn western yearlings, \$6.00 to \$6.50.

Colorado lambs, \$7.25 to \$8.50.

Western lambs, \$7.00 to \$7.75.

Shorn western lambs, \$5.50 to \$7.50.

### KANSAS CITY MARKETS.

Kansas City Stock Yards, May 4.

Another good week of growing weather has insured perfect grazing conditions pretty well over the country for some time ahead, and this has put considerable snap into the market for thin cattle. Prices on this kind advanced 25 cents early last week, and the gain was held till the close. Forty per cent of the 21,000 cattle that arrived were bought for grazing, and a few feeders went out. The run today is \$300 cattle, and prices are strong to 10 higher on killing kind, strong to 20 higher on stockers and feeders. Kansas and Missouri are the heaviest buyers, with Iowa and Illinois also sending in some inquiries for good stock, and some low grade stock cattle going to high mark for this spring. Best stockers a year ago were bringing \$7.60 to \$7.85. Best feeders bring \$7.80 and bulk of the stock steers sell at \$7 to \$8, good springer cows and heifers at \$6 to \$7. Favorable farming conditions, and the confidence in good crops this year that is abroad, are stimulating country buyers into action. Good light young stock is counted on as being able to grow out of high initial cost, and the increased interest killers are showing in prospective supplies of beef cattle ahead is encouraging to finishers who have something bearing on the market. Colorado and the west are practically done for this season. Native territory has not been threatening to the beef market this year, and it is less so now than heretofore. South Texas has some beef but it is being held back in expectation of better prices, particularly if active hostilities break out in the Mexican situation. Thus beef cattle receipts for a month or six weeks will be light in the west.

J. A. Rickart, Market Correspondent.

### THE BLAKELY-SANDERS-MANN COMPANY REPORT.

National Stock Yards, May 4th.

Cattle receipts today were 3,800, mostly all natives. The steer market was fairly active and fully steady with last week's close, but nothing of a tippy kind was on sale. There was quite a good supply of yearling steers and butcher heifers, and while the market averaged about steady with the close of last week the bidding was uneven, some of the buyers making a strong effort to get them lower. Just a normal supply of cow stuff, which sold active and steady to strong. Stockers and feeder supply very light, good active market on all kind. We look for a fair market the balance of this week.

With a run of only 8,000 hogs today and a light supply at other points the market was active and 10 cents higher, top \$8.65 for a piece of a load. Most of the good hogs \$8.50 to \$8.55; light to good mixed, \$8.35 to \$8.50; rough packers \$7.90 to \$8.10; good weight pigs \$7.75 to \$8.25; light pigs \$7 to \$7.75. We look for better receipts during the week and believe that prices will be on a lower basis.

PERSONAL TAX NOTICE.

All personal tax is past due and must be paid at once to avoid considerable trouble and extra expense.

Ohio, says: "A few years ago I was  
in a very bad run down condition,  
and the physician told me I had con-  
sumption. I tried another physi-  
cian, and he told me I had ulcers  
on my right lung. I quit the physi-  
cians and started on 'Vinol.' Today  
I am perfectly healthy, and that is  
why I recommend 'Vinol.'"

Vinol soothes and heals the in-  
flamed surfaces and allays the cough.  
Vinol creates an appetite, strength-  
ens the digestive organs and gives  
the patient strength to throw off in-  
cipient pulmonary diseases.

Try a bottle of Vinol with the  
understanding that your money will be  
returned if it does not help you. Leo  
P. Alcott, Druggist, Jacksonville,  
Illinois.

### JUSTICE COURTS.

The case of Ira Ham vs. R. H.  
Blumling in which the complainant  
sued for \$75 damages, was heard in  
Squire Coons' court Tuesday. The  
complainant alleged that a horse  
owned by the defendant killed one  
owned by the complainant. The case  
was tried by jury and about twenty  
residents of Markham attended the  
trial. On reporting a disagreement  
the jury was dismissed.

H. M. Burns of Waverly, who was  
tried in Squire Dyer's court Monday  
on a charge of trespass, was found  
not guilty according to a decision  
made by Squire Dyer Tuesday.

## WORLD'S LATEST FINANCIAL AND MARKET NEWS

### CONFIDENCE IS LACKING IN THE STOCK MARKET

Quotations Fluctuate Within a Nar-  
row Range—Foreign Representa-  
tives Do Little.

New York, May 5.—Speculation  
was slow and irresolute today. The  
confidence with which prices were  
bid up on the recent rise was miss-  
ing. Outside buying fell off greatly  
and professional traders all greatly  
on one side of the market to the other  
with the result that quotations al-  
ternately rose and fell within a narrow  
range. Net changes were unimportant.  
London prices were barely  
changed and foreign representatives  
did little here. Perhaps 50,000  
shares were sold for London. This  
selling, together with realizing sales  
sent prices lower at the outset. The  
Hill shares led the decline, Northern  
Pacific losing two points on the re-  
port that a new bond issue of the  
stock was to be put out. The report  
met with prompt denial followed by  
a recovery in the stock. Missouri  
Pacific made a temporary showing  
of strength owing to the expectation  
of an early announcement of new  
financial backing for the road but  
it sold down in the last hour, after  
it became known that no definite ac-  
tion had been taken by the directors  
at today's meeting. The whole list  
eased off in the late dealings, after  
various shares had made net gains  
of a point or more and last prices  
were near the day's lowest.

### LACK OF EXPORT DEMAND AND FINE CONDITIONS WEAKEN WHEAT

Interest in Great Harvest Promise  
For Winter Wheat Predominates  
Market.

Chicago, May 5.—Despite a strong  
front at the outset, wheat today grad-  
ually weakened on account of fine  
conditions for growth and because of  
entire absence of export demand. The  
market closed heavy at the same as  
last night to 1/2 c lower. Other  
speculative articles all had a net  
gain—corn 1/2 c to 5c, oats 1/4 c to 3/4 c  
and provisions a shade to 5c.  
Interest in all else proved second-  
ary to the great harvest promise for  
winter wheat. According to a lead-  
ing expert, insect damage has been  
virtually eliminated as a probable  
source of danger to the crop and  
there only remains as perils the  
chance of rust, a sudden freeze or  
later hot winds, too much rain, or  
the thick stand.

Fear that there would not be gen-  
erous arrivals of Argentine corn un-  
til late June or in July gave corn  
prices a strong upward bent,  
throughout the day. Further storms  
in Argentina and reports that South  
American dealers were endeavoring  
to buy back corn sold for shipment  
up to May 20th, made shorts here  
anxious. Improved shipping demand  
helped cause the oats market to  
climb. Besides it was estimated that  
the acreage in the leading states had  
decreased 3.25 per cent.

Provisions ranged slightly higher  
with hogs and corn. Trade, however,  
was the smallest recorded in  
months.

## THE OBJECTS OF

THE BOYS' CORN CLUB  
Fred Marion Spies, who won the  
\$100.00 prize in the 1913 Boys'  
Corn Contest in his story of his  
corn said:

"The object of the Boy's Corn club  
is to instruct and direct the boys of  
our country in the possibilities of  
farming as a profitable and dignified  
profession, to encourage more in-  
tensive farming by using best  
known methods of soil building, se-  
lection of seeds, seed testing, culti-  
vation of corn, etc. To give the  
boys instructions as to the best kind  
of work; to adapt boys to agricul-  
tural environments. To teach the  
value of intellectual guidance, careful  
observation, cultural comparison  
investigation and need of broader  
education, teach the boys proper  
adaptation of plant life to local cli-  
mate and soil conditions.

The prizes offered this year are:  
First prize, one hundred dollars  
gold.

Second prize, fifty dollars gold.  
Third prize, twenty-five dollars  
gold.

### The New Baby is World's Wonder

Every tiny infant makes life's perspective wider and brighter. And whatever there is to enhance its arrival and to ease and comfort the expectant mother should be given attention. Among the real helpful things is an external abdominal application known as "Mother's Friend." There is scarcely a community but what has its enthusiastic admirer of this splendid embrocation. It is so well thought of by women who know that most drug stores throughout the United States carry "Mother's Friend" as one of their staple and reliable remedies. It is applied to the abdominal muscles to relieve the strain on ligaments and tendons. Those who have used it refer to the ease and comfort experienced during the period of expectancy; they particularly refer to the absence of nausea, often so prevalent as a result of the natural expansion. In a little book are described more fully the many reasons why "Mother's Friend" has been a friend indeed to women for more than two generations. This book was prepared not only to aid the inexperienced but to enable so many women to have at hand the timely hints, suggestions and helps in concise and neatly printed form for ready reference. It should be in all homes. "Mother's Friend" may be had of almost any druggist but if you fail to find it write us direct and also write for book to Bradford Regulator Co., 593 Lamar Bldg., Atlanta, Ga.  
 What is said herein of "Mother's Friend" is but a repetition of the thoughts expressed by thousands of happy mothers who have successfully used this splendid external application.

## Spring Opening Announcement and Showing of a Famous New Line of Stoves and Washing Machines

### ROASTING AND BROILING LESSONS

Mrs. Minish will discuss Roasting and Broiling this afternoon at 2 o'clock in her Demonstration of the Detroit Cabinet Gas Range. The Baking Lesson yesterday was well attended.

### COME TODAY SURE

### From this Date to May 9, Inclusive

We are going to introduce in Jacksonville a new line of hot weather goods—stoves and washing machines, and have made arrangements with the factories to send representatives of experience and ability to be with us during the demonstration and introduction. We extend a cordial invitation to the public to visit our salesroom during the period mentioned. We are confident that the things we will show will be found most interesting and practical. Mrs. Elizabeth Minish, head instructor for the Laclede Gas Company of St. Louis, will demonstrate the efficiency of this latest type of range.

### A Very Special Offer

At any time during the days mentioned above we will take back your old low oven stove and allow you \$5 on the purchase of a Cabinet Range. This is positively the only time that this offer will be made this year.

## ABSOLUTELY BEST OPPORTUNITY OF THE SEASON

### A Cabinet Range to be Given Away

To each adult person visiting us during this demonstration we will give a ticket that will entitle the holder to a chance on this magnificent \$34 Cabinet Range. It is a beauty, glass doors and enamel parts.

See This Gift Stove in Our Window

**RELIABLE GAS RANGES**

Of particular interest will be a demonstration of the famous Thor Washer, one of the greatest household devices brought out in recent years—a time, labor and expense saver.

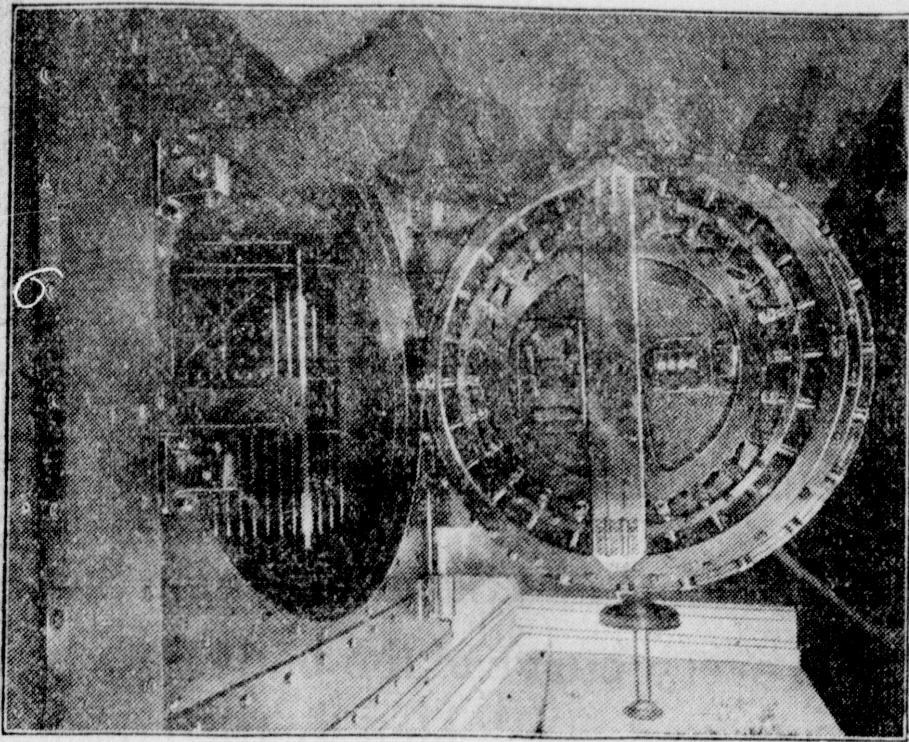

We also take pleasure in announcing at this time a further cut in Mazda Tungsten Lamps, which will bring these lamps within the reach of all.

## The Ayers Safe Deposit Vault

A Safe Deposit Box is not a luxury, but a necessity to the owner of stocks, bonds, deeds, mortgages, insurance policies and other valuable papers.

Anxiety about jewelry and silveware not in use is dispelled when they are in a Safe Deposit Vault.

It may be of interest to know that in the construction of the vault there are more than 380,000 pounds of steel and the door itself weighs 14 tons.

To rent a Safe Deposit Box in this vault costs less than one cent a day.

Private rooms for the examination of papers are provided for the convenience of patrons.

ILLINOIS WAR WEDDING  
CELEBRATED IN CALIFORNIA

Under a heading, "After half century. War romance retold to chime of golden bells" the Los Angeles Times of recent date says:

"Fifty years of married life, which began on the day Lieut. Nathaniel W. Reynolds was ordered back to his regiment after a furlough, was celebrated Saturday afternoon when Mr. and Mrs. Reynolds were the honored guests of their daughters, Mrs. Montague Porter and Mrs. Ferguson S. Hardin at the residence of Mrs. Hardin, 1735 Fifth Avenue.

Standing before a war scarred battle flag, under which hung the veteran's sword, Mr. and Mrs. Reynolds received their friends. Their children, grandchildren, with the exception of Mrs. George W. Cheaney of Sedro-Woolley, Wash., were present.

"When the Civil War broke out and the call to arms came, Reynolds drew seventeen friends around him and the eighteen offered their services to the country. Reynolds was made a first sergeant and he and his fellow recruits were attached to Co. I, 33rd Ill. Inf.

"This regiment was known in the service as the 'Schoolmaster's Regiment.' Charles E. Hovey, who had been president of Illinois Normal school was Colonel. Three members were instructors from Shurtleff college. M. Moore, a professor of languages, M. Brace, a professor of languages, and Capt. Kellogg, a professor of English, were among the academic troopers.

"The company was in many battles, incidentally the siege of Vicksburg, and these actions had so depleted the company that Reynolds, when given a furlough, was entrusted to secure new enlistments in the Illinois town which was his home.

"Reynolds had been courting the young lady who is now Mrs. Reynolds. When on April 18, 1864 the orders to re-join the regiment were received, the young people sought out a minister and became man and wife.

"Their honeymoon, an unusual one, came six months later when she journeyed to Louisiana, where Reynolds' regiment was guarding the railroad. In March 1865, the regiment was ordered to the siege of Mobile and Mrs. Reynolds returned north. In autumn she rejoined him at Vicksburg and was his comrade until the close of the war."

The California paper describes the decorations of the home and gives a list of the guests, among whom were Dr. and Mrs. John Balcorn Shaw, late of Chicago. The paper also contains a photograph of Lieut. and Mrs. Reynolds, made on their wedding day just before Lieut. Reynolds left to rejoin his regiment in the Civil War. Below are their portraits as they appeared on the golden wedding day.

Mr. and Mrs. Reynolds resided in Jacksonville for some time at the corner of Prospect and Grove streets, going thence to California.

Mr. Reynolds was born in the vicinity of Perry, Pike county, Illinois, and Mrs. Reynolds, who was formerly Miss Sophia Moore, was a native of Ohio, and a daughter of the late Mr. Henry Moore of Pike county. Mr. Reynolds is an uncle of Mrs. J. W. Lane of West State street.

## MORTUARY

## Cullen.

Mrs. Martin Kinney of Arnett street received word Tuesday afternoon, announcing the death of Miss Anna Cullen, who passed away at her home in Chicago after a brief illness with typhoid fever. The deceased was a daughter of Mr. and Mrs. Edward Cullen, formerly resided in this city, but had lived in Chicago for the past thirteen years. She was a cousin of Mrs. W. S. Ehnie of South Main street. Arrangements for the funeral have not been made.

## RAIN AND HAIL IN SOUTH PART OF COUNTY

Franklin was visited by a big rain and hail storm Tuesday night about 6:30 o'clock. The storm was accompanied by a heavy wind and the hail was of large size and lots of it. Murrayville also experienced a heavy rain with a large amount of hail.

MEDIATORS TO HOLD CONFERENCE  
IN NIAGARA FALLS, ONTARIO

(Continued from Page One.)

only routine business had been considered. Secretary Bryan remained after the cabinet meeting, however, and it was understood he went over with the president the entire status of the mediation negotiations and particularly the names of the American delegates. The sessions of the mediators, continued through the day, with the three Huerta delegates now named and understood to be on the way; the United States delegates not yet designated; and Carranza definitely eliminated from mediation so long as he persisted in his present attitude. The destination of the Huerta delegates was not clear. It became known that Huerta wished the negotiations take place in neutral territory suggesting Canada as a suitable location. But this had encountered opposition on the ground that Canada being a British colony might introduce into the negotiations an European element and also because it was believed the British government would not be particularly desirous of having the controversy brought within its domains. It was said that ten days might elapse before definite work on a settlement could begin with the arrival of the Mexican delegates.

## Text of the Note.

The text of the note from the mediators to General Carranza made public during the day, stated definitely for the first time that "all the difficulties which contributed toward the present situation in Mexico bear either directly or indirectly on the solution of the pending conflict between Mexico and the United States."

The mediators therefore announced that all these difficulties "should be made the subject of consideration in the negotiations."

They also informed Carranza, that they considered a suspension of hostilities as "indispensable" to his participation in the mediation. The mediators are proceeding with their general plans by which they hope to bring about a peaceful solution of the differences between Mexico and the United States. They consider it essential that there be an avoidance of hostile acts and so long as there is no resumption of hostilities, they will continue to feel that their efforts are tending in the direction of a peaceful settlement.

Outside of the mediators, some of the foreign diplomats took the view that the elimination of Carranza and the limitation of negotiations to amendments for indignities to American sailors and marines at Tampico and Vera Cruz would be a step in advance.

They pointed out that President Wilson and Secretary Bryan had insisted that the troops were sent to Vera Cruz solely to redress these indignities. If, therefore, the mediators could furnish a formula for this redress there was no reason, they declared why the troops should not be withdrawn and the present crisis as between Huerta and the United States ended.

Other diplomats, familiar with European procedure when foreign territory has been occupied were doubtful whether the troops once at Vera Cruz would or could be withdrawn until a complete settlement had been effected.

The military situation is being materially affected by the diplomatic status.

## Huerta Has Hands Full.

Carranza is active against Huerta while Huerta has his hands full in watching the United States forces in Vera Cruz. The American forces will not advance while hostilities are suspended, unless attacked but even with the truce, Huerta is hesitating to take his troops from Mexico City to mass them against Carranza. Strategically Huerta has the United States forces marking time in his front and the Carranza forces advancing in his rear.

During the day the state department announced that Dr. Ryan, the American threatened with death as a spy was in the custody of the foreign minister at Mexico City but at six o'clock Thursday night would be started for Vera Cruz on a refugee train which has been delayed because of lack of rolling stock.

The question of the disposition to be made of the receipts from customs at Vera Cruz during the period of American occupation has been settled by a decision to keep the funds intact, to be used later on in settling any claims of foreign bond holders for interest alleged to be payable from customs receipts.

Mexican foreign minister Ruiz today officially notified the Spanish embassy here, which is in charge of Mexican affairs, of the appointment of the Huerta delegates to meet with the mediating envoys.

The despatch said the three delegates would be accompanied by Raphael Elguero, as secretary of the mission.

The Colombian legation here today announced that the Colombian senate has passed a resolution deploring the conflict between the United States and Mexico and expressing warm wishes for the success of mediation and for a peaceful and lasting settlement of all existing differences. The resolution was communicated to the mediating envoys.

## ILLINOIS FACULTY CHOOSES COMMENCEMENT ORATORS.

Robbins Russell and Miss Annie Bellotti will be the 1914 commencement speakers according to a decision of the Illinois College faculty announced Tuesday morning in chapel. They have not announced their subjects as yet. Two student speakers are chosen from the number of the graduating class each year on the basis of oratorical ability and scholarship. They were recommended on this occasion by a special faculty committee consisting of Prof. J. G. Ames, Prof. Rollin H. Tanner and Dean F. S. Hayden. Last year the speakers were Miss Genevieve Clark and Warren E. Hall.

### WILL MOVE TO DECATUR.

E. A. Whitlock of Murrayville is packing his household goods preparatory to moving his family to Decatur. He formerly conducted a hardware store in Murrayville but has not yet decided in what business he will embark in Decatur, although he owns a farm near the city. His family consists of his wife and three daughters, Geneva, Opal and Olive.

### SOCIAL EVENTS.

Miss Katharine Crane of Mt. Sterling addressed the meeting of the Woman's Missionary society of State street church in the parlors of the church Tuesday afternoon on the subject, "The day of the Young People in China." It was a most instructive and profitable address. Miss Crane expects to return to China next month. Mrs. Arthur M. Masters was hostess of the afternoon, assisted by a number of ladies and during the afternoon delightful refreshments were served.

The French Musical club was entertained last night at 6 o'clock dinner at the Colonial Inn, Dr. A. B. Applebee being the host. There are twenty members in this organization.

The Knights of St. Paul of Central Christian church were entertained Tuesday evening by their Sunday school teacher, T. Forrest Smith, at his home on West College avenue. A pleasant social hour was spent and plans were discussed for the further prosperity and rebuilding of the class.

The decorations were red carnations and lilies of the valley. Light refreshments were served. A number of interesting contests were played in which prizes were won by Miss Winnifred Priest and Harrison Simons.

Mrs. William Barr Brown entertained Tuesday afternoon at her home on West State street, in honor of her daughter, Mrs. George Conover. Mr. and Mrs. Conover have recently returned from California and expect to reside in Springfield. The Brown house was prettily decorated in spring flowers and during the afternoon Bridge Whist was played. Miss Alice Wadsworth having the highest score won first prize and the guest prize went to Mrs. Conover. Mrs. W. B. Brown, Jr. of Island Grove and Miss Louise Conover of Virginia were among the out of town guests present.

Mrs. W. B. Brown, Jr. will entertain at Bridge Whist at Colonial Inn today. Luncheon will be served at 1 o'clock and cards will be played during the afternoon.

The entertainment given by the Young Ladies' Sodality of the Catholic church Tuesday evening at the Knights of Columbus hall, was well attended and a considerable sum was realized to be applied toward the new library fund. Each member of the sodality had worked hard in preparation for the event and judging from the success of the event socially as well as from the financial returns, their labors were amply rewarded. The evening was a feature of the entertainment toward the close of the evening. At the games prizes were won by Miss Margaret Scheffer, Miss Nellie Roach and Miss Bertha Smith. Edward Stapleton won the first gentleman's prize, Frank O'Donnell the second, while the consolation prize for gentlemen went to Frank Flynn.

### I. W. C. ALUMNAE TO MEET.

### THIRD WARD PARENT-TEACHERS' ASSOCIATION IN LAST MEETING

"Fathers' Night" Observed Tuesday Evening at Third Ward School Was Well Attended and Profitable Program was Given.

"Fathers' Night" was observed Tuesday evening by the Parent-Teachers' association of the third ward at their last regular meeting of the season, held in the third ward school building with an excellent attendance. A brief business session was held and the old officers elected to serve for the year ensuing. Mrs. T. H. Buckthorpe will thus be the president, Miss Elizabeth Higler the vice president and Mrs. C. A. Patton, the secretary-treasurer for the 1914-1915 season. Almost as many fathers were present at this meeting as mothers and the program and social hour which followed was greatly enjoyed by all.

Miss Elizabeth Cogswell and Miss Helen Bennett favored the audience with a piano duet after which a paper was read by Miss Jennie Grassly on "The Relation Between the Teacher and the Parent". This paper had been prepared for the April meeting of the association and was re-read by request. Mrs. Walter Rabjohns presented the subject—"How Can Home Help the School?" in a manner entertaining as well as instructive. Miss Edith Dunlap, principal of the Morton school, gave a helpful discussion on "The Aim of the School." Among the succeeding musical numbers was a violin solo by Miss Helen Harrison of the Woman's college, with Miss Deane Obermeyer as accompanist and a solo by Supt. W. A. Gore with Miss Jones of the Woman's college accompanying. He sang "On the Road to Mandalay." Short addresses were made by several of the fathers present, including Ellsworth Wells, Mr. Gore and T. H. Buckthorpe.

**MONEY**

It's MONEY that does the business

Get this one truth firmly fixed in your mind to start with: The man who pays cash saves more than 20 per cent and gets better goods and service than the man who runs a book.

Prove this for yourself by getting prices from the advertised bargains at the cash store and comparing them with what you have been paying on charged accounts.

Come and start a credit with us and we will loan you the MONEY to pay cash for everything and after you have once established a credit with us you can get MONEY on a moment's notice.

EVERYTHING STRICTLY CONFIDENTIAL

Call, Write or Phone III. or Bell 449 and our agent will be pleased to call at your residence and explain our liberal plan.
